Please tell us your LSNZ Experience.

LSNZ is a great school where I met lot of people from all over the world. I have studied during 1 month and I did progress! I have appreciated to have to speak in classroom.

What is your most enjoyable memory in New Zealand?

My most enjoyable memory is to have time after classroom to have fun with other students.

I stayed in a homestay: Please tell us about living with a Kiwi family.

I stayed in a student apartment: Please tell us about living with people from different countries.

Cory house in Lake Hayes Estate. It was a bit long from Queenstown, but the world was beautiful. The family was quite discrete but always was respectful.

LSNZ is an angels next school. It is very different than ~~with~~ have in our country. You have to speak english with other students. Queenstown is an amazing place, perfect if you like sport!

I spent a really great time in learning English in these conditions. It has been a pleasure to speak and share good moments with students from all over the world. An excellent start for my 2 month trip in New Zealand.

What is your most enjoyable memory in New Zealand?

Spending crazy week-end with students of the school. Hungry-jump / Down Hill hiking / Trip to Wild food sound.

I wasn't in my case a Kiwi family (England / Brazil) but I really enjoyed it. The family has been very friendly and helped me for many activities and for discovering the area. I feel very lucky.

Sometimes strange to speak English with a French, a Swiss and a Belgian but certainly a fantastic place for learning and practicing English. Then, it's not just a school but something more where you can share activities and good time after school.
